**SANITIZATION SYSTEM** specific  
for medical and professional  
transport vehicles

# O<sub>3</sub>Z-Tech

## SANITIZATION SYSTEM specific for medical and professional transport vehicles

### Stop to bacteria, viruses and contaminants!

O<sub>3</sub>Z-Tech efficiently and rapidly sanitizes the inside of medical and professional vehicles, ensuring air, surfaces and objects decontamination from bacteria, viruses and other pathogens and infecting agents. Flowing out ozone from the oxygen contained in ambient air, it can completely sanitize the entire treatment area, without releasing residual chemicals.

### O<sub>3</sub>Z-Tech for your vehicles

O<sub>3</sub>Z-Tech has been designed to be easy-to-use and intuitive. It is the ideal device for vehicle sanitization thanks to its compact design and the possibility of wall mount with EN 1789 crash test certified system.

### Main specifications

Treatment monitoring via the integrated high resolution ozone sensor

Easy-to-use and intuitive: display interface, LED and acoustic warning

Bluetooth connection, App and sanitization report

10g EN 1789 certified mount
